and is marked on the ground as follows:

Beginning 750 feet South of the discovery monument, at the South end center monument, unning thence West 300 feet to S.W. corner monument No. 1; thence North 1500 feet to N.W. corner monument No. 2; thence East 380 feet and parallel to the South end line to the North end center monument thence East 300 feet and parallel to said end line to N.E. corner monument No. 3; thence South 1500 feet to S.E. corner monument No. 4; thence West 300 feet to place of beginning; including all dips, spurs, angles and variations.

The No 1 Corner Monument of this claim is 1200 East of the S.W. Corner of this sec  
The West side of the claim  
should be on East side of Cerro de Navata

The above described mining claim is named  
Little Spot #2

Located this 5 day of 5, 1990.

#### Note

"The small type on black lines is merely a guide for the locator and is no part of this notice."

**Process or Claim**—The location (discovery point) and corner monuments should be described on the accompanying diagram to make the record of claim more perfect.

A claim line must not exceed 1500 feet in length along the vein or lode, by 600 feet in width, 300 feet on each side of center of vein or lode.

No location of a mining claim can be made until the discovery of the vein or lode within the limits of the ground claimed.

The claim must be distinctly marked on the ground, so the boundaries can be readily traced. A severe penalty is provided by law for removing or obliterating the claims or monuments of a mining claim.

Claims located on Sunday or holidays are legal.

All valuable mineral deposits in lands of the Government are locatable by citizens of the United States only, and those who have discovered their intentions to become such.

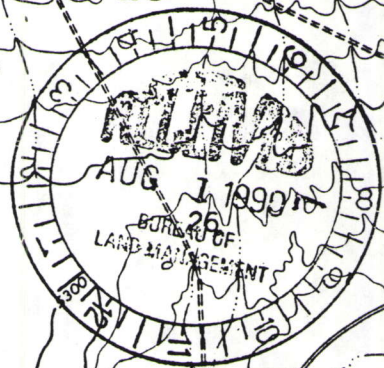

This location notice must be posted on the discovery monument and a copy of this notice must be filed for record with the County Recorder of the county in which the claim is located within thirty days after the date of posting.

SUBJECT Update/amended notice of operations UTU-070660 to mine  
obsidian in T. 24 S., R. 9 W., Section 22, E2SW

COMMENTS:

Dave Penney called our office to find out the procedure for amending his notice of operations. His notice proposed mining jasper and obsidian by using heavy equipment (backhoe, frontend loader, etc...).

The locations specified on the original notice are: T. 24 S., R. 9 W., Section 11, SW/4; Section 14, NW/4; and Section 27, E/2. The mining claims listed on the original notice are; Little Spot #1, UMC 326873; Black Spot #1, UMC 331633; and Empirical Jasper #1, UMC 57429.

He stated, he would also like to prospect in T. 24 S., R. 9 W., Section 22, E2SW, on his Little Spot #2 mining claim, UMC 335439.

I asked him to send me a letter indicating what we just discussed, he asked if a fax would be acceptable instead of a letter, and I told him that it would.

After I received his fax it became apparent Mr. Penney's writing skills are below average and I decided to write this phone call/confirmation conversation to clarify the intent of Mr. Penney's amended notice.
